2000 Analytical Review DWCCA-1080-PJL

Dear Ms. Hofstede:

The Public Service Commission staff is in the process of completing an analytical review of your utility's 2000 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that this review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

- 1. Please note that in the future, the income from the water tank property rented for communications, currently reported in Account 418 on page F-2, should be reported in Account 474, Other Water Revenues on page W-4.
- 2. We are concerned about your utility's high level of unaccounted water and your lack of response to our letter dated January 4, 2001. Attached to that letter was a list of detailed steps that can be taken to correct this problem. Please respond with contact information for the person who is responsible for taking action to resolve this. We will continue to contact you in the hope to address this issue. A visit by one of our staff is planned to take place in the next several months.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient

for you to do so. My e-mail address is leegep@psc.state.wi.us. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege Financial Specialist Division of Water, Compliance, and Consumer Affairs

WATER OPERATING SECTION FOOTNOTES

Water Operation & Maintenance Expenses (Page W-05)

Account #600 Salaries and Wages: Increase in wages is a result of time spent repairing mains, hydrants, and services. Utility crew worked on repairing 8 hydrants and several main leaks.

Account #640 Supplies and Expenses: Increase due to increased testing costs of \$4,000.

Account #682 Outside Services Employed: Increase related to engineer consulting fees of \$6,774 for system operation efficiencies.

Water Services (Page W-16)

Services added during the year were financed by application of Cz-1.

Meters (Page W-17)

New meters were tested. All 5/8" meters were put into service in 1998 by ϵ complete meter replacement program.

Hydrants and Distribution System Valves (Page W-18)

The utility was not able to comply with the minimum valve operating requirement. For the year 2001, the utility will adopt a schedule to comply with the administrative code.
